

GALMANGODA GURUGE CHAMAL SANJEEWA

(MBBS: Msc: MD: PhD: MBA:MPA:Dip Msc:Dip)

Consultant Clinical Practitioner with specialist in Clinical Cosmetology, Hospital Administration and Management.

PROFILE

I, Dr G G Chamal Sanjeewa am a clinician and a specialist in Public Health Administration at the Ministry of Health, Nutrition and Indigenous Medicine in Sri Lanka. I am 44 years old and Sri Lanka's youngest specialist with a PhD in Health Economics. I hold a Bachelor of Medicine and Surgery (MBBS) from Faculty of Medicine, University of Ruhuna, a Master of Science (MSc) in Medical Administration from the University of Colombo, a Doctor of Medicine (MD) in Medical Administration from the University of Colombo, and a Diploma in Public Procurement and Contract Administration (HNDIPPCA) from the Sri Lanka Institute of Development Administration (SLIDA). Additionally, I hold Master's degrees in Business Administration (MBA) and Public Administration (MPA) from the University of Colombo, a Diploma in Law from SLIDA, and a Dip MSc in Health Economics from South Wales University in the United Kingdom. I am currently the Consultant at Ministry of Health of Sri Lanka. I have 18 years of experience in Emergency Medicine, Pediatrics ICU care, Neonatal ICU care, Administration and Management of Patient safety and Quality care in clinical and public health as well as Public and Private Sector Director position as a CEO.

I am one of the pioneer of First National Health Research Symposium of Sri Lanka, where more than 350 national and international research papers were showcased in 2017/18. I have extensive experiences in monitoring, evaluation, priority settings and setting policy decisions on National and provincial level health development and Research of Sri Lanka.

I initiated and established the rural door step NCD and CKDU (Kidney disease of unknown origin) clinics at agricultural and fisheries regions of Sri Lanka. I am a recipient of several national awards for my exceptional achievements and contribution to the development of primary health care of Sri Lanka and health education and scientific knowledge sharing through mass medias in Sri Lanka. I was awarded the World Academic Championship -2017 in Health Service award and The World Academic Championship is organized by International Agency for Standards and Ratings at international level. They mentioned that "Dr. G.G Chamal Sanjeewa, (World Academic Champion and Fellow, Directorate of Health Service, IASR) plays a vital role in advancement of scientific knowledge in Health Service. World Academic Championship-2017 in Health Service, acknowledges

SKILLS AND COMPETENCE

- This is to confirm that I had been working as the Deputy Regional Director of Health – Hambantota district since 07.10.2015 and was involved in the development of the public health sector and upliftment programs for the disabled community in Hambantota.
- The Hambantota district is divided into 12 Medical Officer of Health-MOH divisions, which serve a population of nearly 700,000 people. These MOH divisions are directly responsible for the development of the preventive health sector and providing direct service to the public. As Deputy Regional Director of Health, I was responsible for supervising and implementing public health programs in rural communities, particularly those with disabilities and malnutrition.
- There were several intra and inter sector collaboration programs conducting in Hambantota district with the assistant of divisional secretarial offices and other government and non-government organizations. These multi sector programs were organized and led mainly by I myself within the scope of my duties.
- Improving the social well-being of disabled people, directing them toward daily self-employment, and contributing to the national economy are planned and implemented in Hambantota district under the supervision of the regional health authorities. Numerous motivational and skill development programs, as well as life skill programs, were held under my direct supervision. I encouraged disabled people to contribute to the Gross Domestic Product-GDP and economic development of the Hambantota district through these special programs.
- I conducted farmers’ clinic first time in rural down south for detecting Kidney and Non communicable disease.
- I led my health institutes towards quality, patients’ safety clinical audit, and clinical governance accreditations. It directed to won best health care institutions in quality and safety in southern province of Sri Lanka.

INTERESTED AREAS:

- Good governance
- Quality
- Patients’ safety
- Public Health
- Health Economy
- Management and Leadership
